"There are three responses one can gain from a client ; yes, no, and WOW!

Wow is the one to aim for."

— paraphrased from Milton Glaser

O.M.A.C.

Designer-On-Call Retainer Service Overview

Every business or organization relies on regular marketing activities and graphic design communications to ensure their success, but not everyone will have the time or budget to take on a full-time marketing or design staff.

In today's ultra-competitive marketplace and exclusive communities, you cannot afford to lose potential clients because they think that your competitors appear more professional, more unified, more popular or more put together than you are. But it requires an investment of time and effort to keep your graphic design, Web and marketing efforts looking their best.

With Designer-On-Call you can now afford to have all your creative materials such as your logo, business stationery, print ads, flyers, brochures, sales material, Website design, Social Media Marketing and much more created or maintained for one flat monthly retainer rate, starting from just \$50/day - that's about \$1500/month for design services.

What is a retainer service?

Retainer Service (Designer-On-Call) is a revolutionary, cost-effective way for small and mid-sized businesses and organizations to access all the services of a talented professional without the cost of hiring a full-time employee. It offers the perfect way to get an out-sourced marketer-designer for businesses that need regular recurring services every month and want to save money on high salaries and expensive benefits.

For a pre-determined monthly fee, O.M.A.C. budgets a set amount of priority hours each month specifically toward your projects (flexible to your needs). Unused hours may be carried forward to future months (however must be used prior to the determined expiry date).

The Designer-On-Call Retainer Service contract is month to month and paid in advance, with typical terms set for 3, 6, 12 or longer month terms.

Advantages of having a Designer-On-Call

Convenience - Gone are the days of wondering if you can afford to have a particular piece of marketing collateral created. Gone are the delays of getting a price quote before work starts. Enjoy the convenience of just sending a request and having work start on your required piece or plan. It's included in your Designer-On-Call monthly fee.

Priority Service

By securing a guaranteed amount of prioritized design service time, Designer-On-Call retainer clients are always given a higher priority when it comes to their projects (which are sometimes needed "yesterday").

Consistency

Enjoy the creative consistency that comes from using a single firm for all your marketing needs. Relax with the peace of mind that all your marketing communication pieces will be unified and present your business or organization's image in the best, most professional light.

Cost Effective and Customized

Maybe you just need a graphic or Web designer for a few hours do minor monthly updates. Or you may have a major project coming up and need a designer for a week or two each month! Whatever your individual case may be, we'll work with you to develop a plan that fits your unique needs.

Discounted Design & Service Rates

Along with the benefits and convenience of monthly billing and securing a 30% lower hourly rate, unused hours may be carried forward to future months (however must be used prior to the determined expiry date).

No Expensive Overhead

With the monthly Designer-On-Call retainer service O.M.A.C. is an extension of your business and you will have the resources available to get your advertising, marketing and design done right; without making space in your office, paying for equipment or added employee costs and benefits.

Consider the costs (time and money) you'll save compared with hiring and employing an in-house designer:

- Full/Part-Time Salary (current national average is \$66,000 according to a salary.com report.)
- Benefits Package (medical insurance, dental, vision, etc.)
- Overhead and workspace (office, expensive hardware and software, payroll)
- Vacation and sick time and more...
- Unreliability – “My employee Jane has these skills, and I’ll get her to do it”

The cost of employing a full/part-time designer can put an unnecessary strain on your "bottom line".

Accountability

Each month you will get an accounting of the work created, the time used, and the amount of retainer if any left to be used. A regular weekly or monthly call will be set up to allow us to discuss your account, and address any design needs you may have as well as to report on progress of any outstanding work.

Direct Contact

In addition to the regular calls to discuss your account, a secured webpage will be set up where you can review or download your requested work. Depending on your preferred method of contact, communication can be facilitated by phone, email, video chat or a custom instant messenger account to allow real-time online contact.

How much does Designer-On-Call service cost?

O.M.A.C. continues to provide graphic design and marketing services on a per-project basis. We can quote and project any item you might need. But based on feedback from our many clients we have found that our repeat customers often require more than just one or two projects - many need everything “from soup to nuts” for their businesses, but not quite enough to warrant employing a full/part-time, in-house Technical Artisan. So, we have created a revolutionary way for clients who need a more complete design service and a way to benefit from more savings.

Rates.

An average Designer-On-Call client pays only \$50/day or \$1500/month to ensure a minimum of 40 hours of dedicated services to design an unlimited range of projects. The contract is month-to-month and paid in advance. The service, number of hours and range of projects can be customized to your individual needs.

Who Becomes a Retainer Client?

Some of our Designer-On-Call retainer clients are small businesses or organizations who are either just starting up, and require everything to get their business started off on the right foot, while others are already established and have some form of recurring monthly design needs - whether it's a newsletter or monthly email marketing, social media campaign or those just looking to update their Website content.

What Now? How to get started?

Just express your interest in becoming a retainer client and telling us a bit more about your business and design needs. We won't hard sell you an aspirin if you don't have a headache. That is just rude and disrespectful of your time.

Meet at your convenience, we can ask a few questions about your business goals, and the most effective way to achieve those goals within your budget. Once we determine the types of retainer services you need, a reasonable monthly rate is established.

More Sales Pitch...

The Designer-On-Call Retainer Service contract is month-to-month and paid in advance. We recommend, although you are not obligated, a minimum starting arrangement of two months. This enables us to learn about your company's brand and culture and during which time we can determine the exact nature and volume of creative projects you'll need and thereby adjust your retainer agreement to be most cost effective for your organization. This period will also allow ample time to finish any projects we may have started together.

We're sure that once you've enjoyed the convenience of having a Designer-On-Call you'll never buy graphic and marketing services the traditional way again.

DESIGN & MARKETING

We specialize in a wide range of services designed to supercharge your branding and marketing needs.

Professional Design at an Affordable Price

Need a reliable designer for all your graphic and marketing needs? Whether you're launching a new business or refreshing your brand, O.M.A.C. Design's Designer-On-Call service offers a cost-effective, hassle-free solution.

Why Choose Designer-On-Call?

- ✓ Flat Monthly Rate – Starting at \$50/day (\$1,500/month) for unlimited design support.
- ✓ Priority Service – No delays, no per-project quotes—just send your request, and we start immediately.
- ✓ Consistency & Quality – Maintain a unified, professional look across all branding and marketing materials.
- ✓ Cost-Effective – Save on in-house designer salaries, benefits, and overhead.
- ✓ Flexibility – Custom plans to match your needs, with hours that roll over.

What You Get:

- Logo & Branding Design
- Business Cards, Flyers, Brochures
- Web & Social Media Graphics
- Ads, Sales Materials, and more!

A simple month-to-month retainer gets a dedicated designer without the high costs of hiring full-time staff.
